VDesignz

PROFESSIONAL SUMMARY

Full-stack developer and Scrum Master in Gothenburg with experience across the product lifecycle: UI/UX, frontend, mobile apps, backend, databases, CI/CD and App Store / Google Play release. Works with React, React Native, Expo, Next.js, TypeScript, Kotlin, Swift, Node.js, Supabase and Firebase. Used to agile teams, sprint planning, user stories and code review. Takes products from idea to production. Open to full-time or contract roles as a full-stack, mobile or web developer.

SKILLS

Languages: TypeScript, JavaScript, Kotlin, Swift, Java, HTML, CSS, SQL

Web and mobile: React, React Native, Expo, Next.js, Vite, SwiftUI, Jetpack Compose, SwiftData

Backend and cloud: Node.js, Express, Ktor, REST API, GraphQL, Supabase, Firebase, PostgreSQL, SQLite, AWS Lambda, DynamoDB, Serverless

Process and release: Scrum Master, Agile, Git, GitHub, pull requests, code review, CI/CD, Vercel, App Store Connect, Google Play Console, SEO, GDPR

Design: Figma, UI/UX, responsive design

EXPERIENCE

Spelinsikt - Mobile App Developer & Scrum Master (LIA Internship)

Gothenburg | 2024 - 2026 | React Native, Expo, Supabase, TypeScript

- Developed calendar and profile features to support users in quitting gambling.
- Built tracking for gambling-free days, recovery milestones, reasons for quitting and money saved by not gambling.
- Implemented push notifications and in-app pop-ups.
- Worked with Supabase for backend and authentication, and translated Figma designs into app interfaces.
- Served as Scrum Master with Trello and Miro, and helped onboard new developers.
- Prepared and published app releases to the Apple App Store and Google Play.
- Built in-app analytics with PostHog.

Freelance and independent products - Full-stack Developer

Gothenburg | 2024 - present | React, Next.js, TypeScript, Vite, Vercel

- Lillemansplåt.se: designed, built and shipped a company website with SEO, contact flow, domain, hosting and later a React rebuild on Vercel.
- Skolverktyget.se: Next.js and TypeScript study platform with national-exam practice, grade calculator, study planner and AI support.
- VDesignz on vivianne-sonnerborg.se: a template studio with live website demos for different industries.
- Built multiple original projects on GitHub, including apps, APIs and web tools.
